

**International Society for Micropiles
10th International Workshop on Micropiles
September 22-25, 2010
Washington, DC, USA**

Invitation to Speakers – Call for Papers

Papers are solicited on the following micropile topics:

- State of practice
- Innovations
- Technical challenges, e.g., cyclic degradation, seismic design, connection design
- Historic renovation
- Load testing
- Numerical analysis on micropiles or micropile walls
- Education and market growth areas/potential
- IBO bond values and challenging soils
- Equipment evolutions – what is better now than then
- Slope stabilization and shoring with micropiles
- Lessons learned (the good and the bad...no names please)

To participate, please submit an abstract to ISM (contact details below) and confirm your intent to submit a full draft paper for consideration by the Program Chair and Paper Review Committee.

Key dates:

- Abstracts due January 31, 2010
- Acceptance of Abstracts February 15, 2010
- Draft papers due May 15, 2010
- Reviewer comments returned to authors no later than July 1, 2010
- Final, revised papers due August 31, 2010

Authors will be required to submit electronic versions of written final papers for inclusion in the Workshop Proceedings (to be issued on CD). The Program Chair will select speakers to make oral presentations at the Workshop. Presentations will be made in plenary sessions and followed by in-depth discussion. Paper format guidelines and author instructions are available at www.ismicropiles.org.
